PROJECTS

Redesigning website
I created a mockup redesign on a website called marathondessalbes, because i like their initiative.
I incorporated my Graphic design knowledge as well as my UI/UX skills to make creative design in an effective way combining visuals with usability.

Personal FAQ
In this project i used my programming skills with javascript, html5 and css3, combined together with React JS as a framework. I enjoyed very much creating this project, because it included quite a few key concepts in programming that i've learned and i got to incorporate.
